

The evolution Duo fishing kayak is the ultimate in 2 man fishing kayaks. Designed for the use of 2 people, this kayak is perfect for everyone from expert anglers to your family and your friends. The design of this duo double fishing kayak makes her super stable and easy to use. Deep seating positions and a wider beam than the Pro fisha Duo make this double the best all round double for sharing with friends, family and inexperienced paddlers.

Speed is still no problem at all with this kayak, however not as fast as the Pro fisha duo. The effort needed by the two paddlers is minimal to make her perform admirably. Perfectly suited for two occupants where their combined weight does not exceed 250kgs. The capacity of the kayak, including gear and tackle or fish, can be as much as 310kgs.

The well thought out design also allows the more experienced angler who would manage the fishing rods to use the pedals and steering from the back seat. This also means it is easy to keep an eye on the lesser experienced angler or your kids in the front while you paddle and fish.

DUO
