

The Stealth Stand Up Paddle Board "SUP" is a family friendly entry level SUP.

The board is made using the same process as our kayaks and is vacuum molded fibreglass. Made in two piece the board is a hollow type construction and not a solid foam board as with the high end SUP's. This allows us to make it cost effective and economical for the entry level paddle and family's.

The board itself is a simple shape with plenty of stability and a manageable weight.

Stand up Paddle (SUP)
